

# **ELECTRONIC TRANSMISSION** **ORDER OF PROTECTION PROGRAM**

**RIGHT:** Westchester Family Court and the County of Westchester recently celebrated the one-year anniversary of its Electronic Transmission Order of Protection initiative.

This joint effort gives an emergency order of protection petitioner the ability to choose to have a personal service packet expeditiously sent to a participating Police Department utilizing a county-provided digital sending device.

The program enables victims of such offenses as assault, attempted assault, menacing, reckless endangerment, stalking and disorderly conduct to bypass the time-consuming and often tedious task of bringing the service papers to the offenders' home police department.

*Senior Court Office Assistants  
Deidre Shankey and Crystal Devore  
prepare the HP4345 Digital Sender  
for a transmission to the  
White Plains Police Department.*
