Access To Child Welfare Data Online

This document contains a small sample of the child welfare data available from the Child Welfare Court Improvement Project (CWCIP).

If you are looking for more views, disaggregations (ex. age at entry, filing type, disposition type, etc.) and sub-measures of any of the metrics in this packet, there are many more dynamic views and data available online.

For Unified Court System employees, to access the complete data set electronically from inside the court system, please go to the below website. It would be best to contact one of the individuals noted below to assist you with accessing this information online and understanding the data itself.
