Introduction

SECTION 528 OF THE JUDICIARY LAW, ADOPTED ON JUNE 15, 2010, directs the “commissioner of jurors to collect demographic data for jurors who present for jury service.” The statute directs collection of data describing: race and/or ethnicity, age and sex. The statute further directs submission of the data in an annual report to the Governor, Speaker of the Assembly, President of the Senate and the Chief Judge of the Court of Appeals. This report is for the calendar year 2013.

DATA COLLECTION PROCEDURES

Each person who appears for jury service is asked to complete a scannable data collection card. The card explains that New York State Judiciary Law §528 requires the court to collect data about jurors. The juror is asked to:

- **FILL IN** the date
- **INDICATE** whether she or he was “here to serve as a trial juror or a grand juror”
- **INDICATE** gender
- **ANSWER QUESTIONS** about race, Hispanic origin, and year of birth, and
- **INDICATE** county of jury service.

Questions about Hispanic origin and race are the same ones used in the 2010 census.

OVERVIEW

In the calendar year 2013, there were 397,742 cards completed and successfully scanned and 478,296 jurors appeared for service. The following pages contain tables showing the numbers of jurors served and cards completed in each county this year followed by tables showing the percentage of responses for each demographic characteristic.
