General

1. What is the electronic filing system?

The New York State Courts Electronic Filing System (NYSCEF) is a means of filing and serving legal documents electronically with various courts, including the Surrogate's Court, Supreme Court and the Court of Claims.

2. What are the benefits of electronic filing?

Electronic filing offers many benefits to attorneys, clients and unrepresented litigants in Supreme Court and the Court of Claims. Once jurisdiction is obtained, attorneys can file and serve papers at any time from any place via the NYSCEF system. A case can be initiated or post-commencement documents filed at any time on any day, even when the courts are closed. Service through NYSCEF could hardly be easier. Multiple attorneys working on a case can view the file simultaneously, and do so from different locations. Storage of papers is simplified and expenses reduced. Fees can be paid on-line with a credit or bank card bearing a Mastercard or Visa logo. The system provides immediate e-mail notice of all filings, including filing of all orders, judgments, and decisions, which will be available on-line. The docket is clear and easy to work with. The system is easy to learn and simple to use. Where necessary, documents containing confidential information can be sealed if the assigned Justice so directs.

My name is Azam Mohammed and I was a merchant in the Middle East. I have been diagnosed with Esophageal cancer, it has defied all forms of medical treatment, and right now I have only about a few months to live, according to medical experts.

I have been duped by a lot of people in the past including very immediate family, as they seem not to be concerned with what I have left for them. The last of my money which no one knows of is the huge cash fixed deposit that I have with a Holding Firm abroad. I will need you to help me collect this deposit and dispatched it to charity organizations and also help set-up a research or foundation in my name.

God be with you.

Azam Mohammed.

 Quick Advice Card

Unfortunately, you may need to leave the premises.

A public accommodation may ask you to remove your dog if the animal is out of control and the animal's handler does not take effective action to control the dog.

Service Dog Advisor Report

Prepared for you on September 30, 2020

Your Situation

Your service dog is out of control and you are not able to take effective measures to control the dog.

Your Rights

A public accommodation may ask you to remove your service dog from the premises.

Service dogs must be under the control of the handler at all times. The dog must be harnessed, leashed, or tethered while in public places unless these devices interfere with the dog's task or your disability.

Mind that a service animal should not be allowed to bark repeatedly in quiet public places(e.g. lecture hall, theater, library, etc.). But if your dog barks just once or someone else provokes it, it's OK.

Rule of Law

ADA Reg. §36.302(c)(2)(i) states a public accommodation may ask you to remove your dog if the animal is out of control and the animal's handler does not take effective action to control the dog.

ADA Reg. §36.302(c)(4) requires that service animals be under the control of the handler at all times. The service animal must be harnessed, leashed, or tethered while in public places unless these devices interfere with the service animal's work or the person's disability prevents use of these devices. In that case, the dog must be off leash to do its job, but may be leashed at other times.

'Under control' also means that a service animal should not be allowed to bark repeatedly in a lecture hall, theater, library, or other quiet place. However, if a dog barks just once, or barks because someone has provoked it, this would not mean that the dog is out of control.
