NEW YORK STATE COURTS

OFFICE OF COURT ADMINISTRATION

BRUNA L. DIBIASE
CHIEF OF STAFF

Chief of Policy and Planning Bulletin

Number 03/09

June 29, 2009

TO: IDV Court Users

SUBJECT: New Build of IDV Application

Please note that effective June 26, 2009, a new build of the IDV Application (version 5.05) will be available for download. It has been designed to accommodate new changes to the federal biannual statistics reporting requirements and also includes some new data tracking features.

Pursuant to new reporting requirements effective January 1, 2009, a new report has been added to count the number of victims referred to victim services (governmental or non-governmental). The victim referral tracking in the application has also been expanded to allow more flexibility.

In addition, the system includes the following new features:

- Tracking of Index Number;
- Tracking of race for defendant/respondent and petitioner/plaintiff roles;
- Public calendars now display law guardian names for matrimonial case types.

For a full description of all of the system enhancements, please see the attached Application Release Note.

To download this new build, please go the following link on the OCA Intranet and click the link to "Download the IDV/DV Application":
